REMARKS

In the last Office Action, restriction to one of the following inventions was required under 35 USC 121:

Claims 1-8 drawn to a light active device; and

Claims 9-24 drawing to a method for manufacturing a light active device.

By this response, applicant provisionally elects claims 9-24 for examination, without traverse. Claims 1 and 2 have been amended so that claims 1-8 are also drawn to the elected invention, a method for manufacturing a light active device.

In view of the foregoing, Applicant respectfully submits that the application is now in condition for examination. Favorable consideration and allowance of the claims of the application are most respectfully requested. The Examiner is invited to contact the undersigned by telephone if there are any questions or suggestions regarding the present application.
